Keyboard piano with note names. Keyboard songs with letter notes. Keyboards for beginning piano students.

You just can't have too much beginner piano music! Teachers, supplement your piano method. With FREE DOWN-LOADABLE kids' sheet music, EASY to intermediate piano songs, Traditional, and classical. Scales, chords, & exercises, guides & reference sheets to explain the keyboard, guitar tabs, the music staffs, & more! Important music sheets for the first week to a month: Choose one of these handy layouts, from three different styles. Black Notes songs/Little songs all on the black keys using only fingers 2, 3, & 4. Some old, some new, & all easy for beginners! Check out the long page of black keys songs... Piano Scales Sheet Music 5-finger scales for shaping the beginner's hand posture. Starting on C position, and moving up to the next all-white keys position. These scales are the most important beginning technique my students learn. With note names inside the note heads, and finger numbers with the first set, students catch on quickly! Scales for left hand, too. Wormies - just printable notes! Not yet true note-reading, but following UP or DOWN. This little exercise is just looking at the musical staff as a "ladder". One slow note at a time, the notes creep up or down - or stay the same. Now you will KNOW if your students are understanding the movement of notes on the staff. The easy sheets and songs above are what I send home with my students at lessons 1 - 4. Some, like the scales & simple chords pictured above, greatly improve students' recall of what we have gone over at lessons, because they are VISUAL. They also help parents, who may not be musicians. Others, such as the paper keyboard, become a permanent reference, as we add a new key every week until even the black keys' names are memorized. Additional beginner sheets & music: Crickets Go Hopping...is really just a re-named version of "Snakes Go for a Walk." You will find both those sheets at this page. When students thoroughly "get" Wormies and Snakes, it's time to graduate to this page, which is almost the same, except for surprising "hops"! Fuzzy Wuzzy! This graphic shows a "helper notes" version of Fuzzy Wuzzy. (Another arrangement without lettered notes is also on this page. Just 5 keys are used in this song about the sheets with no hair. God is Good lyrics & music! Though this song has skips, it is easy, short, & sweet. Especially with AlphaNotes! But there are other arrangements on this page. Greensleeves/Not the melody, but the easy broken chord accompaniment. You may think this is way too hard for your young students. Trust me, once they can play a 5-note scale and make a chord, they will be able to play broken chords. And they are NOT READING the notes, but following the chord symbols above the music notes. The first beautiful piano music for my students. It will inspire them. Indian Dance High energy with a non-stop melody, this is a song your beginners will be amazed to hear themselves play! A treble-clef-only version and an "AlphaNotes" version are also available on this site... This song looks much harder than it is. Jingle Bells sheet music! Beginners do well with familiar songs! They will enjoy it, even if Christmas is far away. The one shown here has lettered notes, but there are several versions on this page. Kum Ba Ya! An old melody with simple appeals to God. This is a familiar song to many. Louie Louie sheet music for piano! Okay - so this is NOT a beginner's version! But I do have a LETTERED-NOTE version, very easy to read, on the same page. This "song" is really just the 3 main chords in the key of C, set to the rhythm of Louie Louie. A super fun way to understand the I, IV, & V chords. Mary Had a Little Lamb! Use this well-known song as a foundation for left hand chord technique, and also learning to transpose simple melodies. Several arrangements, some with finger numbers and chord symbols, and some without. Ode to Joy! The famous song by Beethoven, multiple versions! Kids like to play a song that has a familiar melody. Get it with AlphaNotes or without; with left hand chords or without. Sharks, the Jaws theme song "Sharks" piano music is a shoo-in for the Jaws theme song; at least, kids think so in my studio! A very ominous-sounding theme, in the bass clef. Introduce your students early to the sound of "minor" Snakes Go for a Walk! Just like Snakes, but with hidden "skips". These are fun to try and spot! It also has a new version of this exercise - same notes - called "Crickets Go Hopping"! It is also on this page. Jump to a page showing ALL the pieces and exercise above. Though these pieces are real songs, real music, they are also note reading WORKSHEETS in a fun way! Go here to see the piano music with letters page, "Note-Naming Worksheets"! Primarily, this music on this page is made up of Middle C songs with "sharped-between-the-hands" melodies. Many will be familiar to your students. These are the same songs (along with many more) that are found in my book Songs Old & Songs New. Additionally, there are some pieces that make use of left hand chords or very simple accompaniments. Most of the Middle C melodies have chord suggestions or illustrative graphics for an enterprising accompanist to devise his or her own backup. A few also have written-out second parts, for easy duet playing. Some of the songs duplicate songs for Beginners & also music with lettered notes, but this is because I tend to make songs with multiple levels of difficulty for my students. Every kid, & every situation is unique Every kid, every situation is unique... some kids will happily play week after week from their piano method books, enjoying each turn of the page with its new challenge, while others find the books boring and dig in their heels as you attempt to drag them through their lesson book. Some beginners move along quickly, while others need months and months to digest the small handful of notes around Middle C. Some kids have heard classical piano music from the time they were born; with others, all they know is video game music. So how do you choose instructional materials for them? So how do you choose beginner piano music? Well, all kids love to play what is familiar to them. You will have to stretch them, expanding their tastes, but you must still satisfy their desire to play what sounds like music to them (the reason they were excited to play piano in the first place!) or risk losing them as students. Never will I forget an account by the late John Holt (writer and early home-schooling advocate, and lover-if-not-master of the cello) in his book, Never Too Late: My Musical Life Story, about meeting another adult cello student. Give them more than just SCALES... Like him, she was a beginner, and they were comparing notes (no pun intended). Holt was thoroughly enjoying himself with the growing number of real cello pieces he could play, even though he knew his abilities were modest. But the poor woman cellist was confined to scales by her teacher, week after week. At the end of each lesson this man would say something like, "I think you're almost ready for a real piece...., but no, we'd better continue with the scales." Yikes! Can you imagine? I don't think too many of us would do that to our students, but the story is a useful reminder that LOVE, a sense of wonder, and excitement are what draw children to music, and we teachers must not forget that. Yes, they need the basic foundation. And more... Scales? Yes. Exercises? Yes. Note-reading? Of course. But with beginner piano music, always at least one FUN piece, a piece that gives the child something to look forward to at practice time. Keep looking until you find a piece they enjoy, and they will likely work on it happily until it is perfect. So where do you find that perfect piece? It's so easy to make a wrong choice for a picky student! And there's the nagging little voice in the back of your mind reminding you that copying is definitely not legal... But sheet music is so expensive! If only there were sources of free kids' sheet music, beginner piano music! Music, in addition, with suggestions for teachers, and stories and tips. Well, now there is. My site, and other sites too. I have a large and ever-expanding collection of beginner piano music, and what I offer here has been tried and found worthy of keeping!
